by John Huber. The stones had been prepared by Johannes Sondereg-ger. They were all high priests. At this time there were no other ward organizations of the priesthood. The seventies were organized as a quorum shortly after the Elders were organized in a stake capacity.

During 1885-1886 the first ward organ was purchased at \$125. The meeting house had been completed to such an extent that the first meet-ing was held May 23, 1886; however, it was not dedicated until 1895. There was still an indebtedness of \$40, and \$50 more was needed for a skylight over the door. The building measured 60 ft. by 30 ft. and 16 ft. to the ceiling. It was built of native rock with a belfry at the south end which contained a big church bell, its beautiful, clear tones ringing out to call the people to worship and tolling on sad occasions for funerals.
